ABOUT THE PHOTOGRAPHER

Who would have thought, that the thing that brought me so much pain would be the source of my biggest strength one day and give me the ability to change the lives of others?

My name is Allie Serrano. I was born in the Czech Republic, near Prague, in the heart of Europe. It is a land filled with rich country, history, and romanticism, a place where things are handcrafted, one-of-a-kind art, heirloom antiques are created and celebrated. This world continues to influence me to this day.

AllieSerranoPortraits.com

I was bullied as a child

When I was little, I was bullied for having red hair. Other kids laughed at me and called me names for being different. This changed the way I saw myself. For years, I thought I was not good enough and felt embarrassed. I believed their lies and so I decided to hide away from the world.

I loved playing dress up

As a little girl, my sister and I played dress-up. We loved going through dresses and clothes in my grandmother's attic, trying them on, and running around as princesses and little models.

My best friend died at 35 years old

In 2016, my best friend passed away from a brain aneurism. Her passing impacted me in a big way. I never would have imagined that she would pass so young. It is also one of the frames that will always remain empty on my wall because I didn't take the time to capture a portrait of her. It also made me realize that life is short. I finally saw that I need to start living my dream. It was time to stop hiding and start living.

I started a Portrait Studio

So, as an homage to my best friend, later that year I started my business and became a portrait photographer. I truly enjoy lifting the confidence in both women and men. I don't want anyone to feel not good enough. Capturing the best possible portrait of them is very important to me. What if this is the last one you ever take?

Today I empower others to achieve their dreams

It is not surprising that with everything I went through, I became a portrait photographer and I focus on helping others. My goal is to empower both women and men with an unforgettable photoshoot experience, capture stunning magazine-style portraits of people around me, and help them to see how beautiful they are on the inside and the outside.

CORPORATE TEAM PORTRAITS

In today's competitive business world, first impressions matter more than ever. Whether you're building your brand, updating your website, or preparing a company-wide campaign, professional corporate team photoshoot can be the difference between looking polished and looking unprepared. At Allie Serrano Portraits, we specialize in corporate team group portraits in the Tampa Bay area that not only showcase your team but elevate your brand's image.

WHAT WE OFFER

Corporate Team Photoshoot In Your Office

Many groups of more than 5 members have a difficulty organizing their schedules to meet in one place and time without at least 1 person missing. We can come to you and bring the studio to you. We can also customize the color backdrop and the styling to match your next group portrait with your brand.

We Can Rent a Studio Near You

Are you looking for us to come to you but are concerned that your space is too small or too crowded? We can rent a space or studio near you for your group photoshoot. It might incur additional charges based on the cost of the rent but it will solve many problems and ensure that your corporate team photoshoot is of the highest quality.

Composite Team Photoshoot

This option requires extra planning ahead of time and a bit of vision at the end. What I do in this situation is block one or two days in my studio or in the studio near you, and schedule everyone to come by in 30 minute intervals. It is imperative that the lighting and the backdrop is the same. I have to stand exactly same distance from the client capturing the portrait from the same angle. The result is a composite of your group portrait that is easily modifiable. If someone leaves the team or is added to the team post photoshoot, all I have to do is photograph that one person and add them to the team photo easily. Or in case of exiting the team, remove them with a push of a button. And you have got yourself a newly updated and fresh corporate group portrait.

Allie has been offering editorial magazine cover photoshoot since 2018 and has been on many covers and inside features. BOUDOIR PHOTOSHOOT

Boudoir Photoshoot is designed to celebrate your unique beauty and boost your self-confidence. You'll be guided by Allie Serrano Portraits, a portrait photography studio, through a luxurious photoshoot experience and portraits that capture your best features of self-love.

WHAT WE OFFER

Glamour Portraits

A glamour portrait is a magazine-style photo that highlights your beauty and confidence through professional lighting, styling, and posing. It's a luxurious way to feel empowered and celebrate yourself in a romantic way.

Classy Boudoir

Classy Boudoir Photoshoot is designed to celebrate your unique beauty and boost your self-confidence. You'll be guided by Allie Serrano Portraits, a portrait photography studio, through a luxurious photoshoot experience and portraits that capture your best features of self-love.

Couples Boudoir Photoshoot

A couples boudoir photoshoot is an intimate and empowering experience that captures the deep connection, passion, and chemistry between two people. It's a bold way to celebrate your love and create stunning, sensual images you'll cherish forever.

WHAT IS BOUDOIR

If you look up the word boudoir in the dictionary, the term boudoir from the original first use of the word means a woman's private sitting room, salon, or private dressing room. It is usually the room between the dining room and the bedroom. In today's homes and mansions, this room may be the walk-in closet or the room next to the bedroom and the walk-in closet.

FAMILY PORTRAITS AND PETS

Family is everything and with a family photoshoot we will capture the magic and the love of your family in a portrait that you will be proud to display in your home. Family photoshoot can be photographed in our studio or at a location of your choice.

WHAT WE OFFER

Family Portrait At The Beach

Family Photoshoot at the beach is one of the most popular locations in Florida. It's the perfect spot. Whether at sunset on the beach or in a garden, the state's natural beauty adds a special touch to every picture. Families can enjoy being together while the photographer captures relaxed, candid moments in the pleasant weather.

Family Portrait in the Park

Family Portrait in the park with green backgrounds is probably the second most popular location, in my experience. It is also the most forgiving location to photograph a family. The green luscious background often make a perfect portrait background and there are many pretty parks in the area.

Family Portraits with Pets

As a fellow pet owner, we always include our 4 cats into the family portrait. So we always include your pets and furry children into the family portrait. As you can see from these portraits, I have photographed dogs, cats, chickens, horses, birds, and more into a family portrait.

Family Photoshoot In Studio

Family portraits in the studio offer a timeless way to capture cherished moments with your loved ones in a professional, controlled setting. With expert lighting, backdrops, and guidance from a skilled photographer, each session is designed to highlight the connections within your family.

Candid Family Portraits

This style of a photoshoot is focused on your capturing you just as you are with very little makeup and no retouching. And for a family this also includes a lot of laughter and fun times.

A Fully Guided Photoshoot is a personalized experience where I will direct your posing, expressions, and body language every step of the way, ensuring you feel confident, comfortable, and look your absolute best in every shot.

Client: I don't know how to stand, where to put my hands

"Most of my clients feel the same way at first, but they quickly relax and begin to have fun. I'll guide you through every pose and expression, so there's no guesswork. All you have to do is show up – I'll take care of the rest. You'll feel confident and comfortable, and maybe even forget that the camera is there."

Client: I need to lose some weight first

"While I am not a therapist, a photoshoot experience with me can be very therapeutic. In would love for you to fall in love with the woman you are today. You definitely don't need to wait for a perfect moment to be photographed. Most clients are amazed at how beautiful they look once they see themselves in the final portraits. Plus, I'm good for 20 years and 20 pounds in just posing, lighting, and photoshop alone. Trust me."

Client: I hate myself in photos. I avoid being photographed

"I understand. Let's talk about it. Why do you avoid being photographed? Did you have a bad experience? Or maybe your photographer was not skilled enough to capture the best version of you? I'll help you. Just know that your family and children would absolutely love a portrait of you so we might as well give them a good one!

Client: I just need one good photo of me.

"If that's all you want and need, yes we can do that. That's absolutely fine. Just know that most of my clients end up getting much more. The average spend in my studio is \$1500 on headshots and \$3,200 on intimate boudoir portraits. How many images YOU get is entirely up to you."

PHOTOGRAPHIC OIL PAINTING

Turn your best image into an oil painting

We start with capturing or selecting your best portrait if capturing one isn't possible. From there, after a detailed consultation, we do the first draft based on your vision, colors, layout, and the size of the final artwork.

The digital painting then goes through as many stages as needed, meeting with the client at every stage for approval.

Upon the final approval, the painting then is transferred on to a canvas. The final piece of the artistry happens when the artist goes over the top of the canvas and adds brush strokes completing the painting and framed.

A true masterpiece. Available on avCanvas in sizes from 11x14 and larger.

FAQ

Frequently Asked Questions

“I have no idea how I want to be photographed”

Of course. This is exactly why we have a consultation with every one of our clients. Allie will chat with you, look at examples in our gallery and find out what inspires you. We will style the final looks together.

“I am nervous. I’ve never been photographed before.”

Don’t be nervous. Most of our clients feel that way and they love the experience at the end. We will address all your concerns, and guide you every step of the way, and during the photoshoot Allie will guide you to look your best.

“What am Going to Wear?”

You have nothing to wear? No problem. As a part of the photoshoot experience, I will help you find the best wardrobe for you. We can go shopping to your closet, find new things in your friends closets, my studio closet is also available, and my online store FashiinbyAllie.com is always here for you anytime you need.

“What if I am not comfortable in lingerie”

That’s fine. You can wear clothing you are the most comfortable in and look your best. We will help you to pick out something fabulous.

“How long does a photoshoot last?”

A photoshoot can be anywhere from 60 minutes to 3 hours depending on what type of a photoshoot you select. The length of a photo shoot depends on many factors, including the number of people in the shot, the number of outfit changes as well as the location. Read more here [How long is the average photoshoot](#)

“Do you offer any quarantees?”

Yes absolutely. We guarantee that you will have fun being photographed, you will look like your authentic self in your photos, you will love your photos and lastly, the images capture your legacy. See more about our [Guarantee here](#).

Pricing and Product Questions

“How much does a photoshoot cost?”

At Allie Serrano Portraits, our photoshoot experience is more than just capturing pictures – it’s a fully guided transformational photoshoot experience. My clients leave with stunning magazine-quality portraits and a renewed sense of confidence, beauty, and legacy. Each session includes wardrobe styling, professional posing guidance, and luxury retouching to ensure you look your very best.

To book a photoshoot, we ask for a deposit either of \$690 or \$2,500, and the rest is due at reveal session where we select your images, customize your collection, choose your products, and design your wall art.

Clients typically invest between \$2,300 - \$6,000 depending on their chosen collection. The best way to find out exactly what works for you is to book a consultation where we’ll design your dream photoshoot together.

“What is the minimum I can spend?”

Allie Serrano Portraits is a high-end portrait photography studio. The minimum for a regular 1-hour photoshoot with 1 portrait or a digital image, you get both so the choice is yours, you’d spend \$650. Outside of that, on occasion we offer special photoshoot priced as low as \$490. Schedule a call with Allie to find out more.

“Can I just get the digitals?”

Yes of course. Not everyone needs a set of prints or wall art and we totally understand that. You will receive a digital copy of every portrait you select and if you want just digitals, that’s fine too. The cost is the same because the digital negative is just as important as a portrait on the wall. Remember, your hard drive will crash, your phone will break, but the portrait on your wall will always be with you.

“What products do you offer?”

We offer a various line of products, Wall Art, Folio Boxes, Albums, and much more. If you’d like to see everything in person, let’s schedule a time with Allie for you in the studio and chat. Also, you can visit our [products page](#) and be wowed by the incredible products that can be yours.

“Do you offer any retouching?”

When you see the portraits during the reveal session, we will have made the basic retouching to show you close to the final product. Additional enhancement to soften facial lines and remove blemishes can and will be done prior to placing the portrait order. All detailed retouching is included in the total cost of the portrait.

“How Long will take for me to receive my products?”

Depending on your choice of framing and product, your digital images will be ready within one week. From there, your products will be ready for pick-up or delivery within 4-6 weeks, unless otherwise noted.

Booking Questions

“Can I book a photoshoot on Saturday or Sunday?”

We are closed on weekends except for one Saturday per month. It is a premium booking and requires a \$2,500 deposit which will go toward your purchase. We are closed on Sundays. But honestly, most of my clients love to schedule a sneaky day off work during the week and enjoy getting pampered & photographed.

“Can I book during the week in the evening or after work?”

Yes, of course. During the week we are available for an evening photoshoot at least 1 day per week. If you need to stop by after work, we can plan for it ahead of time and schedule your photoshoot during that time separately as well.

“How far out can I book a photoshoot?”

We are currently booking a maximum of 3 months out from the date of the initial consultation. You can also buy a gift card and pre-pay your photoshoot that way if you need more time.

“Can I bring my girlfriend, boyfriend, or my partner?”

Yes, of course, we want you to share your experience with those you love. Make sure they are pre-warned though. We often bring them on the set with you and capture a portrait of the two of you together. So if you bring a loved one with you, know that they will also most likely be photographed with you.

“How do I book my photoshoot?”

You can go to our website and fill out a form request on our booking page. Once we get your request, we will schedule a phone call to go over your details & confirm your booking, and start planning your photoshoot (Book Your Photoshoot).
